**CHALK-TALK VINYL!** The 'chalkboard' surface lets you write, erase and scribble some more! Works well with regular chalk - just wipe clean with a damp rag. Chalk-talk is a 'self-stick' vinyl that can be re-positioned.\* It is safe for walls and other smooth surfaces.

\*can be repositioned on wall surfaces but not smoother surfaces such as glass or stainless steel.

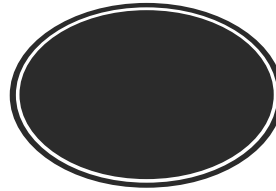

Tip: Look for 'Chalk markers' - a 'dustless' alternative to regular chalk, plus they're great for fine tip writing.
